

**For Immediate Release**

**HBA Introduces New Low Voltage Wall Switches**

**December 2008** - Austin, TX - Hubbell Building Automation, an industry leader in the development of cutting edge energy saving lighting control technologies, announced today the introduction of new decorator style Low Voltage Wall Switches.

These new devices are the perfect switch solution for HBA's low voltage occupancy sensors, daylighting controls and networked lighting control panels.

HBA's Low Voltage Wall Switches are designed for virtually any area. The soft contours of their design fits easily into any décor. The 1 and 2-button switches (with and without pilot LED's) are available in both momentary and latching versions.
